Psychedelic free jazz easy listening abstract world traditions. Gentle 60's - 70's. 11 MP3 Songs

ELECTRONIC: Experimental, **EASY LISTENING:** Soft Rock **Details:** SummerSet marks the debut LP of Gigante Sound, a new record label specializing in the dark creative corners of experimental sound. The record was produced by Jared Blm aka Blanketship. SummerSet is a wild and unexpected ride. The music can only be described as structured experimental sampled sound collage, but abstract pop isn't too far off either. Touches of 70's psych rock, musique concrete, wild jazz drums, big ass brass, Indonesian rhythm sections, microtonal synthesis, acoustic folk guitars and easy listening make up only a few colors of SummerSet's palate of colors. You can't skip through this album to get the point. Dense textures and disturbing surprises await you around every other bar of music. Worth a deep listening!
