Brazilian virtuoso Bola Sete at his best in live performance. Recorded 1976 in San Francisco. Solo guitar. 10 MP3 Songs NEW AGE: Meditation, JAZZ: Smooth Jazz Details: "BOLA SETE LIVE AT GRACE CATHEDRAL"---August 2004 This release is an editor's pick on Smother.Net Review Bola Sete, a guitar god, is perhaps the most influential guitarist to have ever stepped out of Brazil. With his death in 1987 went a legend who was once called by Carlos Santana a "monster genius" and "supremely important". His widow started Samba Moon Records to preserve his music and let it reach the newer generation of guitarists. On this particular record he plays solo acoustic guitar live with a set that's perhaps his best ever. A journey of such soulful guitar artistry that even monstrous Grace Cathedral couldn't hold his sound-it's simply too mammoth. For a guitar legend that once held a cavaquinho in his tiny hands as a child---to produce such important contemporary music---makes it all the more worthy of the praise that will live on well past his death. ! People who are interested in Charlie Byrd Laurindo Almeida Baden Powell should consider this download.
