

Mp3 Catfish John Tisdell And Friends - Below The Surface

[DOWNLOAD HERE](#)

Rock, funk, and blues guitar instrumentals. 9 MP3 Songs ROCK: Instrumental Rock, ROCK: Funk Rock

Details: Since his first public performances in the early 70's in Denver, Catfish has toured the country both as a solo artist and in bands, performing in clubs, coffeehouses, music festivals and concerts. His favorite style of music is a combination of Blues/Rock, but he has performed in bands ranging from traditional blues and folk to more contemporary rock. Catfish has hosted weekly jam sessions on public radio, (he has a B.A. in Radio and TV Production), booked college concerts, written a guitar instructional book, and has taught many music workshops and classes. He is a recording artist, songwriter, author, and studio musician with a variety of CD's, cassettes and books to his credit. Since moving to Maui in 1991, John has performed in several bands. He started the Front Street Blues Band, which featured many of his original compositions as well as classic and contemporary blues and rock tunes. He played fiddle and banjo in the group "String Fever" (He also engineered their album, "Contagious".) and has played in a number of duos playing in clubs and on tour boats. He heads up his own band, "Catfish John and Friends", and is an avid windsurfer. Incidentally, Catfish got his nick-name from swimming in an algae covered pond in North Carolina. This CD of original rock/funk guitar instrumentals is a departure from Catfish John's more common blues/rock style music. It features his electric lead guitar playing and represents a milestone in his development as a musician. Several tunes were written to pay tribute to his musical influences; "One For Carlos" (Carlos Santana), "Jon Lee Was Here" (John Lee Hooker)
