Power Pop 10 MP3 Songs ROCK: Modern Rock, POP: Power Pop Details: Totally refreshing and a blast of warm spring air after a long winter, CBC are what used to be The Flaunt, a great Knack styled power pop outfit. CBC are more like the buzzy anthemic feel of early Cheap Trick combined with the new wavey buzz of Fountains of Wayne playing Weezer tunes turned up to '11' and they successfully mix the top-40 rock sound with classic riffs, and their vocals so perfectly work with the rocking pop here. A highly energetic 10-song CD that is a testament to bombastic power pop at it's finest. Extremely Highly Recommended!! -- Not Lame Records.
