Rocky/Bluesy and Jazzy 11 MP3 Songs
BLUES: Electric Blues, JAZZ: Smooth Jazz
Details: This CD is a testament to the time David has been a professional musician. During the 1970s he played on U.S. bases in Germany and picked up a lot of influences by having to play covers of ZZ Top, Lynrd Skynrd etc. As you can hear he is a great fan of Van Morrison, Jon Hyatt and the like and with a lifelong passion for blues it all adds together for an exciting mixture. David has played in all sorts of gigs from pubs and clubs and even Buckingham Palace! Monte Carlo to Thailand, nowhere is too far to go. There is a new album on the way with new influences shining through and should be available shortly.
