

Mp3 Geoffrey Lee - The Guitar Diaspora

Volume 2 of a unique and eclectic blend of original fingerstyle guitar solos. 24 MP3 Songs WORLD: World Fusion, FOLK: Modern Folk Details: Music seems to be in constant motion - in time, in space, historically, geographically. The African Diaspora leading to the opportunistic migrations from the Delta to Chicago. The gypsy paths from India to Andalucia. Spanish vaqueros transplanted to the fincas of Hawaii. Obsessed folk pickers zigzagging across America. Steered by epiphanes and holocausts, it is always gathering and processing the rich data of humanity. This recording is my celebration of these events, both beautiful and cataclysmic, as we are an amalgam of things gathered along the road to our own voice. If it works, we become a tiny part of the story and we share the wealth of the whole.
