Positive hip hop without any gangsta strutting. 6 MP3 Songs HIP HOP/RAP: Rap, HIP HOP/RAP: Hip Hop Details: Producer Mike Stylez leaves the boards for the microphone with a new name. Irish Mic is the new age of music. Not happy with just having one particular style, Irish Mic wants to do it all, and truly keep it real. He has never been a part of a gang, sold drugs, or grew up in the projects, so will never speak on these topics, but that doesn't mean he doesn't have a message to give in his music. Lindsay's Lessons is his lead single from his full length album which is still in the process of being recorded.

Lindsay's Lessons is a personal song about learning to grow up, and not making the same mistakes that you have witnessed your loved ones do. Featuring R&B singer Oscar Wilson who adds the perfect ingredient to a masterpiece. Mike Stylez (I'm The Real) is a reply to a radio interview done by another artist speaking on Irish Mic. It also shows he does not, nor wants a signature sound, he has many different Stylez.
