Singer/Songwriter piano-driven pop music. Recorded in New York City, this sophomore album has warmth and edge. 11 MP3 Songs POP: with Live-band Production, EASY LISTENING: Soft Rock Details: Baltimore-based Singer/Songwriter/Piano Player John L.T. recorded this sophomore album at Mother West Studios in New York City, and enlisted the help of Producer Charles Newman (Erykah Badu, Empire Records soundtrack, The Magnetic Fields, The Davenports). Using The John L.T. Band for primary instrumentation, Newman added a wide variety of sounds and instruments to add depth and character to the songs. Focused as always on lyrical content and melody, L.T. presents Just What You Wanted as a pop record that still manages to breathe like an intimate singer/songwriter album.
