This comes from the extraordinary courage, positive attitude and determination of my wife Maria, who was diagnosed 11 years ago. She has inspired me to compose the song "You Believe in Me" with the lyrics written by Dan Redican, (English) and Gaetano Lo Monaco, (Italian). Multiple Sclerosis affects different people in different ways, some very drastic and harsh, while others more gradual and milder. At any rate it is a disease that has a devastating effect on individuals and their families. This CD is dedicated to my wife Maria, and also to everyone dealing with Multiple Sclerosis and their families. To all of you, may these songs allow you to relax and enjoy..... MARIO
