21 MP3 Songs HIP HOP/RAP: Southern Style, HIP HOP/RAP: Rap Details: Biography Im the CEO of Going Down Records/Major Entertainment. My label was established in 1997 and I worked on a few mix tapes until we released our first single in February 1999. Getting a nice response locally, we started recording songs for our 1st group album titled Pushin Pens. Now with a couple of projects under my belt and a nice buzz in the streets, I think its time to put everything on my shoulders and bring Dallas to the world. My solo debut, Always Makin Paper scheduled to make history the summer of 2006. Hook for hook, track for track, the nomenclature used on this album is remarkable!!! I touched on social issues, world events, and of course making money. This is one southern under dawg classic like none other! Walk the streets with Mothello as he comes Out Da Trunk and show you how to Always Make Paper.
