Details: Off The Block Entertainment is a group of artists that has the same intentions in life. Wanting to be recognized for the skill that they possess. They all have their own way of expressing the art of music. Their individual style is what stands out. The collaboration of artist brings out the best in each artist. Each artist can stand on their own just as well. Off The Block Entertainment was originated by Jemal Mosley Charlie Plange. The meaning behind the name O.T.B. was put together because that is what we want to do. Take talent off the block (streets), and put them in the music industry to do something positive. The family consists of four artists which is I.G. Off Hazadus, Society, and Cee Wrecker. Each artist receives respect and support from their peers. They have established a name for themselves in their own neighborhoods and many others. When you speak on the fact that dues must be paid in the music industry, all of these artists has paid theirs and are still paying them. They have performed at several clubs, appeared on different radio stations, and participated in many open mics. Off The Block Entertainment has come to the level where as they are ready to take the music industry on by storm. They will never be any regrets once you encounter with the family. The comments on the streets and within the industry are that each individual has the ability to hold it down on their own. Off The Block Entertainment is not just a musical family. There is a connection among each artist. This family is much deeper than just making music. The Compilation titled "Lock Load" is the first project for Off The Block Entertainment and the second project is titled "Best Of The Best".
