Mp3 Oikeo Music Compilation - Worship 2006 Volume 1

DOWNLOAD HERE

Christian music compilation 17 MP3 Songs GOSPEL: Contemporary Gospel, EASY LISTENING: Soft Rock Details: Oikeo Music, Inc. is a group of songwriters committed to working together building a safe community in which to share our Christian original songs. Our group of songwriters originally based in Alaska now includes members across the world and United States. We meet monthly and enjoy listening to the new songs brought to our group. Although we are a resource that caters to congregational worship for worship leaders, there are many genre and styles of music represented in our group. The music requirements are that the music we bring to our guild should be God honoring, theologically sound, and usable to the church body in some form. There are many levels of skill represented in our guild, however, there is one spirit of community within this group. We also learn about the Christian music industry, radio, promoters, and publishing guidelines in our group because we believe that education is a key issue for the songwriting community. Last, we publish our music every other month which includes a magazine with articles from members in our group and each individual song and song scores on an enhanced CD.
