A must-have for all collections 12 MP3 Songs URBAN/R&B: Rhythm Blues, JAZZ: Smooth Jazz Details: Regg Berry has music in his blood. He was raised in the Holiness church by a family in which every member sings and plays an instrument. He picked up the drums at the age of nine, and other instruments - including lead/bass guitars, keyboard, lead synth, guitar synth, and sax synth - were soon to follow. Now Regg Berry is a band in his own right. Mr. Berry found that his talent had wide appeal as he began playing with various local bands and later toured with Henry Walker and the Regents, Ray Drew and the Blues Revue, The Madd Doggs, Soul Injection, and many others. He recently decided to stop touring and producing others to devote his time and energy to his first solo album. Now it's finally here: twelve original tracks filled with heart, soul, and plenty of old school flavor. Every track is composed and produced by Regg Berry. The smooth guitar, whaling organ, sexy sax, and magical voice take you back to the days of real music. This is one artist you will definitely want to keep up with.
