Hold the F#&*ing phone --- horror rock--- that will revive the soul and awaken the spirit. 12 MP3 Songs
ROCK: Punk, ROCK: 80's Rock Details: Lets see HOT CHICK on bass and backing vocals, fire breathing
(WHERE PERMITTED ONLY), horror makeup, red lipstick, coffins on stage, fogginess during
performance, sharp suits and ties, and ahhh yes I almost forgot , BLOOD!!! and lots of it, dripping from
the mouths of Jon, Ryan, and Christine..... The brand of music that The Dishwashers are now producing
is officially considered "Horror Rock" by spectators and has drawn lots of attention since its birth in the
band. In fact, The Dishwashers have started a side company called ALL HORROR ALL THE TIME
PRODUCTIONS that mainly deals with the production of shows right now and is the sole production
company of the band itself, ran by the band, in and of itself. There is a bright and plentiful future for this
young agency and don't be surprised if you find yourself purchasing a product of ALL HORROR ALL THE
TIME PRODUCTIONS in the extremely near future like the album "Rock'n'Roll Will Save Your Soul", a
button, a poster or another form of band memorabilia at any major musical distribution company's
franchise store or e-store. (Check Out: [thedishwashersfor](#) more merch) There are many more words that I
can write to try and convey the all encompassing energy that has allways been displayed by the band
The Dishwashers, but I will end now with a direct quote.....one of my own..... "The Dishwashers are not
just a rock-n-roll show, they are a theatrical production"
