Ultimate One-Click FTP Software Plus a Free Plr Gift For You! Want a really easy way to upload to your website? Well Look No Further! This is way to simple! I call this the one click solution... Just open the software, tell it where you have put your website files on your PC and then enter your FTP information (the user name and password provided by your web host). Click 1 button and the software will upload everything automatically. It doesn't matter how many files are included in your site - or what type of files they are. They can be HTML pages, PHP pages, images, zip files or anything else. Your site can contain a single file, a hundred files or ten thousand files. No matter what the content, the software will upload everything automatically, with a single button click. If you've created subfolders on your PC to contain individual product sales and, or download page, the software will create matching subfolders on your web host automatically and upload all your files into the correct subfolders automatically. And your Internet connection fails during your upload, just reconnect and continue the upload with a single button click. The ultimate easy way to upload your website is right here. But the power of this great software doesn't stop

there. Once it has uploaded your site, the software automatically keeps track of all your web site files on your PC. When you add, delete or change any files, you can just activate the software again and it will make the same changes to your web host automatically. If you've added any files, these new files will be uploaded automatically. If you've created any new subfolders, matching new subfolders will be created on your web host automatically. If you've changed any files, the new versions will be uploaded automatically. And if you've deleted any files or subfolders, they will be deleted from your web host automatically. Once you start using this amazingly simple uploader software, I promise you'll never want to be without it! This Software Comes with Master Resale Rights This means you can sell the software and keep all the money for yourself! Sounds easy right?! But Wait! I'm not Done Yet! I am adding The Go Green, Save Green at The Same Time Ebook. With included Graphics, sales page, Download page, and the Private Label Rights License to this New and Innovative eBook!
