Brand New Package Of Over 1,000 Top Quality Animated Web Graphics! Ready To Go In Minutes. Plus You Get Full Source Files!! Exactly what you get with this package - This package consists of 2 types of files: 1. Transparent GIF files. For the transparent GIF files you don't need any special software. Just add them to your site like you would any other images. And since they're "transparent GIFs" they can be used on any color background (white, black, yellow, whatever). 2. Source PSD files. You can use the source files to customize the graphics and change the colors, styles, sizes, text, etc.. To work with these source files you'll need Adobe Photoshop, Photoshop Elements or Adobe Image Ready (which comes with

Photoshop). And, it's super easy to customize these graphics. All of the animations and layers are in place, so you just have to change one or two lines of text, or add a new style to a button, and the whole graphic and all the layers get updated automatically. It literally takes just a few seconds or minutes. So you can easily create hundreds or thousands more variations of these graphics.
