EBM, Darkwave, Future-pop and Trance. 11 MP3 Songs ELECTRONIC: Trance, ELECTRONIC: Industrial Details: The unofficial 'Black Corps' of the industrial underground, ASMODEUS X comes forth to burn with fire. New alchemy for blood youth. A new blood groove for serpentine consciousness. Synthesizing electro, darkwave, expressionist, Goetic, Objectivist and Left-Hand Path elements, ASMODEUS X is creating a unique hybrid for a visionary future. The sound has been described as Industrial, EBM, Darkwave, even "Folktronica". Voted Critics Choice for best Industrial/Noise Act by the 2000 Houston Press Music Awards, ASMODEUS X continues sharpening long knives on the pavement. Asmodeus X has shared stages with such notables as Attrition, Diva Destruction, Provision, Bamboo Crisis, Bozo Porno Circus, Vesperian Sorrow, Exceed 6 Doses, and Nocturne. Morningstar tells the Promethean story of a fall from grace, a struggle for identity, and the emergence of self-aware being. For this effort Asmodeus X is delving deep into the spheres of ebm, darkwave, future-pop and trance. A wholly synthetic effort drawing on analogue, digital and vintage synths, electronic percussion, vocoders, etc., Morningstar seeks to explore the seductively forbidden side of the human psyche and the essence creation, with hypnotic beats and darkly rich synth layers that point to a new paradigm for electronic music.
