

Mp3 Brian Moritz - Some Mother's Son

[DOWNLOAD HERE](#)

A rather dark album of songs about death and (sexual) obsession that's been compared often to Neil Young and Bruce Springsteen. 11 MP3 Songs ROCK: Americana, COUNTRY: Traditional Country
Details: a collection of somewhat 'dark' songs with a few 'not so dark' songs thrown in for balance. "I really liked this album. I can't believe that, because it's most certainly not the type of music I would listen to regularly. I would not have purchased this album, so I'm glad I had the chance to review this and discover the sad,sad beauty of "some Mothers Son". (misterridiculous.com)
