Indie folk pop with a question in mind 5 MP3 Songs FOLK: Alternative Folk, POP: Folky Pop Show all album songs: Into Danger/Out of Rescue Songs Details: We all have questions: Why do bad things happen to good people? Why does pain and suffering have to be a part of life? Does God have a plan for my life? Why does Wayne Newton never seem to age? The tough thing about looking for answers is that it involves asking questions, and questions are what we fear most. Even as school-children, we cannot bear to say, "I don't know." We perceive questions as doubt, as cynicism, as fear, as weakness. Parents tell their children not to question their decisions. Bosses tell their employees not to question their procedures. The President tells us not to question the war. Pastors tell their parishioners not to question God. A generation that has no questions will inevitably be a generation that has no answers. On January 29th Rebuilt Records releases "Into Danger/Out of Rescue," David Herndon's latest recording project. Through this album and accompanying book, the listener will be challenged, or rather encouraged, to question - question the world around you, question those who love you, question yourself, question God. In asking questions we find answers. "My goal is to give people permission to question without perceiving it as doubt or weakness, but rather as strength, courage, and inspiration. Our questions are not stumbling blocks in life - they are open doors to be walked through. It is out of a place of Rescue that God allows us to explore the "Danger."
