Raw electric Delta Blues with foot stomp percussion 10 MP3 Songs BLUES: Delta Style, BLUES: Electric Blues Details: What they're saying about Jeff Lasley. ... "A distinctive artist with a good feel for the Blues"... Bruce Iglaur, Alligator records ... "Lasley's rugged voice is as Blues-real as a busted axle"... James Walker, Blueswax ... "A fine player and singer"... John Mcuen, Nitty Gritty Dirt Band Notes about the album: In recording "Devil Got My Mind" I thought it best to keep the production minimal. I used an old analog tape machine and set my equipment up in the studio as if it were a live show. I wanted to create a record that had a raw delta feel to it. I felt the songs would be best served that way. For instrumentation I used my old Gibson es-125 semi-hollow body guitar, a custom built late '50's Fender Deluxe tweed amp and a homemade stomp board with a tamborine duct taped to it for percussion. On "Amazing Grace" I used a Gibson Dobro. All the songs were recorded live to tape with no over dubbing or special effects. I hope you enjoy it! Jeff Lasley
