Blending overdistorted guitars with acid vocals and sawtoothed synths, Junkyphunk is more of a state of mind than "just another band". 12 MP3 Songs METAL: Industrial Metal, ROCK: Modern Rock Details: Junkyphunk is a different experience for everyone tuning in. Some hear punk, while others hear industrial and gothic, and still others hear alternative metal. What everyone has agreed upon is that Junkyphunk is one of the most talented bands they have heard in a long time. Balancing a fine line between commercial and non-corporate rock, Junkyphunk is not afraid to step outside the lines of what is expected in a band. "Screw Your Prejudice" is a collection of 12 songs that range from the insane to the grounded, blending over distorted guitars, sawtoothed synths with acid vocals into a menagerie of rhythms and styles. From the riff-pounding "Polarity", to the angst laden "No More Mercy", to the quiet introspective wisdom of "Memorandum", you start to realize this album is more than just music...It is an experience. This is the album there has been a buzz about on sites like MySpace for 2 months prior to its release, for which other bands like Digital Dream have called it "perfect music". Caroline Gonzalez of Houston based NRR Magazine had this to say about "Screw Your Prejudice": "Philly...mastermind behind Austin's Junkyphunk, is an awesome guitarist first and foremost. I love the mix of sounds of styles on this 12-song CD, His eclectic blend of industrial and metal with some gothic undertones are filled with both power and passion. Lyrically, he is completely honest and raw, it's obvious he feels and knows about what he is writing, and is in total control of his music." -- NRR Magazine #29 If you haven't yet experienced Junkyphunk, now is the time to do so. Bands like this are what make record labels nervous, because Junkyphunk has been doing what the labels said it would never be able to do without them. Still riding off the success of their last release, "Inner Distance", Junkyphunk is also proving to be one of the hardest working bands on the underground today.
