Original Songs, Riddles and Poetry in a warm storytelling atmosphere. 36 MP3 Songs KIDS/FAMILY: General Children's Music, KIDS/FAMILY: Children's Storytelling Details: Winner: Parents' Choice Gold Award Winner: NAPPA Honors Award Question: Yikes! Why are there so many tracks? *** Because half of the CD is original music but the other half is original poetry, some with music and some without. We've subtitled it "Songs, Riddles and Poetry you may remember indefinitely" because we believe it's deliciously unforgettable. *** May I recommend a few selections? The first song, "Come On In," is one of my favorites. Other people have gone gaga over "Goldilocks" and there's almost no one who doesn't love "I Love You 100," written for my 4-year-old son, a budding math genius. *** Two of the poems ("Deep in the Forest" and "A Sound Riddle") were published in LADYBUG Magazine, and "Fireflies" was published in CRICKET. So you could say, or I could say, that I am a published poet. *** The CD was produced in Nashville with studio players who knew how to push a good song over the edge into greatness. Although originally produced in 1994, we didn't make CDs until 2004. Thus, the time warp. *** But enough from me. I suggest you read a few of the reviews below. *** Thanks for stopping by! I'm so glad you found me!
