URBAN/R&B: Contemporary urban, JAZZ: Jazz Vocals Details: Born and raised in Michigan, its no wonder this girl has the soul and spirit of Motown!!! A little vocal training from Bertha McNeal of Motown's "Velvelettes" didn't hurt either. Now residing in Chicago this singer, songwriter and actress is definately a bonafide triple threat on the scene! VOCALLY- she has pipes that not only command attention with her range of power, she has a unique sound of her own. LYRICALLY- her lyrics range from such emotion and truth with everything from heartache, to love, to dancing and to loving oneself...What can we say...Honest music...Finally PERFORMANCE- she not only has a smile thats radiant and contagious...she embraces you from the first note and makes you groove, cry, laugh and sing along without even taking a step away from the microphone!!! Taxi's A&R critique gave rave reviews and strong recommendation. Nicole is so unique and has performed in musicals, dramas, and comedies ranging from Dreamgirls, Beehive, Once on This Island and was even cast as a down the line replacement for the role of Shenzi in Disneys hit Broadway Musical "THE LION KING". Opening for such artists as Monique' from the hit TV show "THE PARKERS", Avant, Michelle Branch, Wayman Tisdale and Paul Taylor you can rest assure she will be headlining her own shows very soon. We give her two snaps up and a twist in Z formation!!! To see more go to mitchnumusic.com
