Permission Blurb Permission inhaled its first breath as a song in 1999 with its eccentric alternative to the Mainstream. During its early live performances the song was naturally delivered in a rousing vaudevillian style. The Permission "song and bit" created an underground buzz. To help increase exposure for the act the Permission line of products was developed. The overwhelming success of the swag propelled the Permission venture forward. During this time we inadvertently stumbled upon "The-Me-Line". Known for our erotic themes and our involvement with sexually uncommon female talent our act gave birth to what is now known as the Permission BurleXXX. Permission Ladies Our powerful ladies dominate the roads of seduction and slow down for no man. Their presence on the camera and at our live shows makes it crystal clear to the sub-male. I am in charge oozes from the pores

of these tasty morsels while lustfully pouring out commands of servitude all over their victims. Never look directly into the windows of their souls as you will be brought to your knees in euphoric agony. These ladies are truly not the girls next door.
