

Mp3 Steve Call - Pump Up The Volume

[DOWNLOAD HERE](#)

Christian Dance Music. Techno, Trance and Dance music for the soul. Yep Dance music in Church. 16 MP3 Songs ELECTRONIC: Dance, ELECTRONIC: Trance Details: Ok where do I start oh yes, I Welcome to First of all I must tell you that my spelling is not that good cos. when I was at school all I could think about was music,,,,, sorry mum..... ok. My passion in life is making Christian Dance music to glorify God to bless you guys Well when I was about 12 years old I always wanted to be a DJ on the radio night-clubs. My Dad use to say, get a proper job you knows how it is. Any way I followed my dream got a bit more than I bargained for. After the radio thing I thought I would try my hand at the nightclub DJing thing. So I did that for many years and got a bit fed up with that, so I started to learn how to play the keyboard bought myself a DIY keyboard book off I went. After a year or two a buddy of mine asked if I would play keys in his band. (A rock band) well I was a DJ so my taste in music at this time was big so why not. It was one of the best times in my life even though we could not play. If you ever need something to do for a laugh then get in a band its great fun. As I got further into the keyboard learning I found myself making my own tunes up. In the mist of all this I become a Christian (6 years ago) hence the Dance music. Dance music has always been a passion I love to hear the strings synths the bass the beat. Love it. I have also produced music for adverts, radio show and all that stuff. I play keys in the worship team at Church. Music is a gift from God a great blessing I hope that the music I produce will be a blessing to you. Dance music is not just for night-clubs. The album "Pump up the volume" is my 2nd major album, the 1st being "Mission Possible". Pump up the volume has a different feel to it very much Norman cock and Paul Van Dyke style yet a bit more of a mix of tempos and moods. I think there is some dance samba in there somewhere. I really enjoyed making this album as it presented new challenges, and some moods. Enjoy the album. Well have a blessed time stay happy keep smiling and

dont forget to leave a comment, and yes I do read them.
