You Already Know About Using Video and Audio On Your Website but Discover Here How To Make It Work For You \*On A Budget\* Without Losing Any Of The Benefits! Probably the most widely used Screen Capture software is Camtasia Studio. It is available from Techsmith and is linked very seamlessly with the video hosting (also owned by Techsmith) called Screencast. There is a small learning curve to start with but on the whole you can get going and produce a video in a short space of time.
