Music from a country heart with more miles than my car. 10 MP3 Songs COUNTRY: Bluegrass, COUNTRY: Traditional Country Details: I have been a loyal fan of Country music for well over 7 decades. If some one will play and sing, I'll listen. Many years in the honky tonks, on the stage, or at the bar, but always country. Many friends have departed, but the memories will remain. Never have to say goodbye as long as I can hear the music of Wynn Stewart, Ernest Tubb, Marty Robbins, Johnny Cash, etc. And all the great artist that have taken their place. My wife and I do not travel and so have a lot of time to write and record at home. Our recording are presented for anyone looking for a song that might help them thru the maze. And to keep a style alive for the next generations to come. So sit back, try to enjoy, and KEEP IT COUNTRY.
