Anushka Pop's back self-released EP 7 MP3 Songs POP: Power Pop, Shake Modern Rock Akathena Songs Details: The Boston-based trio, Anushka Pop was settled at the faithful of 2000. The band came together out of a reciprocal admiration for the power pop acts of the 70s and 80s, bands like the Attractions, the Jam, the Cars, and the Paul Collins Beat. Since their first club date, the boys have continued to take to the stage with pop melodicism, a few sharp hooks and the pursuit of the perfect 3-minute single. Akathena continues in the vein of Anushka Pop's 2003 eponymous debut e.p. The band's tightly-crafted arrangements and rapturous performances are well represented here, this time in a suite of 7 songs about love, war, remembrance, rebirth, and self-consciousness...and girls. The e.p. was recorded, mixed and mastered by Mike Quinn at the Moontower Studio in Cambridge, MA.
