Layered and dramatic like The Blue Nile, Annie Lennox and Rickie Lee Jones. 9 MP3 Songs POP: Folky Pop, POP: Quirky Details: "Very rarely do we get to hear a voice as unblemished and as full of wide-eyed awe and innocence. The best is truly yet to come from this young star." - Jed Ryan, jedryan.com "Whether Budd presents quiet grooves ("Empty Day"), haunted musings ("Your Shadow"), or joyous, danceable pop ("Trying Here"), he gets into the heads of many different characters and wraps the music in orchestral arrangements. He can also lift you so high with the music, you may not realize how pensive the lyrics are. You can either let go and dance or sit and wander into the psychology of it all." - Jennifer Layton, Indie-Music.com Bill uses a provocative mixture of truth and fiction to create a unique world of growth and discovery with music that shocks, reinvents and ignites passion for the listener.
