

Mp3 Bill Tucker - Watch Over Me

[DOWNLOAD HERE](#)

Acoustic rock built on pop melodies, thoughtful harmonies, jangly guitars and introspective lyrics for today's spiritual seeker. 12 MP3 Songs POP: California Pop, ROCK: Acoustic Details: "...this is enjoyable praise and worship written by Bill with a strong Beatles influence. In particular, the guitar work on the track "Forever" would do George Harrison proud. -Wendy Vickers wendyv.com "Saying you're influenced by the Beatles is setting the bar high. However Californian Bill Tucker has a point, to an extent. Witness jangly guitars and harmonies that reference George Harrison via Roger McGuinn." - David Faulkner, Cross Rhythms ***** Im a new Christian...kind of. In 2002, my grandmother passed away. Right after that, my wife got very sick and spent a month in the hospital. It was during that time that I got up one Sunday morning and told my teenage son and daughter Im going to church, would you like to join me? They got dressed and ready with no argument. We werent sure where to go, so we just went down the street to Messiah Lutheran in Yorba Linda. Why? Because it was on Liverpool St. and I like The Beatles. When my wife started to get well she joined us and weve been going to that same church ever since. In fact you can find me singing there most Sundays. After reading Rick Warren's Purpose Driven Life I felt a growing need to serve. Being a singer/songwriter, I volunteered to work the soundboard and occasionally sing with the chorus at Sunday services. This ministry inspired me to write and record a collection of praise/worship songs in my home studio. In fact, we performed one of my songs, Watch Over Me for our congregation in April 2005 and it was warmly received. So I decided to release my first CD, Watch Over Me. It's an expression of my journey over the past few years. I hope it brings you peace and joy. Bill You might also enjoy my mainstream CD "Briardale". Hear it at myspace.com/williamhtuckeriii or cdbaby.com/cd/btucker2
