Details: "Upon first hearing the sounds of Cute Phase, you might swear you heard them on KROQ in the late-80s, wedged in between the umpteenth spinnings of "Strangelove" and "Fascination Street." You didn't. But someday you will. This band is new. This band is now. And you can still catch them for free at tiny clubs around Southern California. Do this while you can because these salad days will not last forever." BEST OF 2005 YEAR END REVIEW
