Where he discovered his infinite identities, ergo his rap name Double -I . His lyrical capabilities were brought on by experiences with religious teachings, shysty individuals, yatches (young and tempting chicks), and illegal practices. This and being an being an insaneyologist(study's being insane) gave him sicklafant (lover of being sick) skills which brought on flowkimia (flow disease) induced rhymes and altered egos. His first album intitlled "Christian Rapper" was done in quizzle studios where Double-I puts in his producing capabilities along with Shoddy Sounds, Flig Rollo, and Maurice. The new album done at One Thang and Quizzle studios intitlled"That's Ill" is hot enough to make Satan uncomfortable. With new wave jargon, hellamasick (hella mutherf**kin ass sick) talking, ill beats, and content that resembles the thoughts of computer genuses watching dildoes marching inside Jenna Jameson during a hip-hop side show.
