Details: A Midwest country girl from Wisconsin , Born and raised in Illinois her music and song writing career started, after meeting a musician on her 21st birthday, getting married and moving to the beautiful Chattanooga Tennessee and working as the head bartender at a well known club. She started writing songs, keeping them to herself, watching and hoping to be on stage one day performing and living the dream! The real music thing for her never really started until a decision by her husband to come off the road and take up a day job. After a spell of day work and family life her husband started playing locally with a family based band and had EllieMay going to all the gigs and teaching her how to run sound keeping her part of the music instead of on the outside of it. She always wanted to be part of the live performance but never wanted to say anything ? She finally approached her husband and told him she wanted to sing just one song with the band and she would be happy and not bug him anymore .The group was rehearsing in the garage one day and Ellie May came in and said can I try a song Ive been working on by the Four Non- Blondes called (Whats up)? they all looked at each other and thought what the heck? Now keeping in mind this is not an easy song, the band played the song and was amazed! she nailed it perfect! And as they say the rest is history! One afternoon her husband received a phone call from a group he had been touring with and had been asked if he could fill in for a couple of shows in upper Minnesota and Canada. they also needed a female vocalist for the trip. Now the great part of this is that Ellie May only new about 5 songs and never really preformed live or had any real stage experience. Other then the so called garage audition! This trip was to be EllieMays first real live performance and road trip!

While performing with the band over the next several years, She has since become the center of attraction, easy to look at a great performer not to mention become quite a hot little singer. She and the band have been doing tons of festivals and casinos , street dances and 100s of clubs ! About 150 to 200 dates a year . They have worked their way to almost semi-national status, opening for National acts in the past couple of years such as, Emerson Drive, Dierks Bentley, Kenny Chesney , Brooks and Dunn , Nitty Gritty Dirt Band and most recently, Hal Ketchum , Little River Band , and our buddy Neil McCoy . She recently brought her original material to the band in 2007 and informed them of the direction that she wanted to take, over the next year the band started rehearsing and recording preparing for the release of a CD in March of 2008. The self titled Musicians Wife Cd was released in March of 2008 The song : Waiting Just For You off the Cd was nominated no.8 in the 2008 CMT 330 Sessions Contest. and was streamed on CMT and GAC for 12 weeks nationwide. Another song off the Cd Carla Sue was a no.2 song for 11 weeks on the independent Clear Channel Network, to Ellie Mays surprise another song off the Cd Country Girl was also receiving air play on over 400 different independant radio and cable network stations nationwide! The Cd, is full of songs about her life as a musicians wife and the songs relate to so many different people in such a good way ! People from all walks of life at all the live venues are swarming and asking who wrote that? or where do we get a copy of the Cd? Her friend Jim Gilbert from Texas told us that she has Personas? Yeah we had to look it up in the dictionary ? but hes right ! because she is not just a good entertainer or a great singer and song writer, she is a peoples person. If you watch her with people you will understand her personas wins them over every time! I think you will be seeing videos and hearing her songs on the radio very soon! And then understand how a musicians wife relates to everybody ! (A far cry from the one song statement) !
