

Mp3 Jim Morris - Encore

[DOWNLOAD HERE](#)

A ten piece mostly acoustic band described as interesting, robust, solid, confident, strong and pleasant. Sometimes considered new classic jazz with great solos by some of Los Angeles' best with Jim singing on two tracks. 10 MP3 Songs JAZZ: Big Band, JAZZ: Jazz Vocals Details: This band is a labor of love. It's different while remaining always a joy to listen to. I'm a free lance Los Angeles musician which means that I can be called to do a wide variety of music. As a sometimes contractor/leader I've been asked to put together musicians for events like a Pop Orchestra of thirty great musicians to perform for a post July 4th concert or a small jazz combo to play for an awards party. And, many things in between. In my own ten piece jazz band I play bass trombone and baritone horn as well as occasionally sing. In the small jazz combos I put together I play tenor trombone and sing. That's the life of many free lance players. It's interesting, challenging and guaranteed to keep you on your toes. It's also great fun and I can't imagine doing anything else
