Related styles: EASY LISTENING: Mood Music, JAZZ: Cool Jazz People who are interested in Stan Getz should consider this download. Details: This is not de ja vou all over again! This is actually the first mix of

"Cool Smooth Sassy." We decided to re-mix the original and make some changes on cuts 4 and 10, to make "Cool Smoth Sassy" all instrumental. In addition to that we mixed it totally different. "Cool Smooth

Sassy II" is a more conservative mix with Sharon Saulnier doing the vocal version of cut 4 "You're Free To Go" and Cut 10 "Love Is Give Take." This version received very nice reviews essentially the same as

for "Cool Smooth Sassy," and it sold well in well known jazz markets. It's a little more laid back than

"Cool Smooth Sassy." It's kinda like one of the songs on this CD. The first time I heard "Wind Beneath My Wings" was probaly 1983 and it was sung by a country guy named Gary Morris. Well some where in

the 90's they made a movie called "Beaches" and Bette Mittler not only starred in the movie she made a killer recording of "Wind Beneath My Wings. which is the version most people think of when they hear the

title. There was a difference in the 2 versions of Wind Beneath My Wings", but it is a matter of taste. The

same here with 2 versions of "Cool Smooth Sassy." If you like it laid back Cool Smmoth Sassy II is for you, If you like it a little more in your face and out front "Cool Smooth Sassy" will fiil your bill. My thinking

is there are so many different tastes in music the more options you have available the more apt you are to provide what some one is looking for. So if you like Stan Getz type tenor sax and a torchy deep throated

alto singing a couple of cool love songs, for a bit of contrast, I think you'll enjoy this Cd. This is great romantic music to set a mood for a cozy evening with someone, it also makes nice background music, or

if you're the type who likes to take a drive to get away from the pressure of the day to day routine take

Joe and Sharon with you. They'll relax you!. I never realized how much material I had in my library

Starring Joe and with Sharon along to add the nice warm vocal touch. Keep watchin as i have a couple of other CDs and DVDs with Sharon and joe on the way. Also have a pair of CDs with Sharon in the starring role. Keep watching our page and we appreciate your looking at Our products.
