

Mp3 Justin Robert - Manasota

[DOWNLOAD HERE](#)

Somewhere between new age, ambient, soundscape psychedelia, dreams, meditation, metamorphosis and Magick. 8 MP3 Songs ELECTRONIC: Ambient, NEW AGE: Shamanic Details: In my life two things matter, music and spirit. I have my own spiritual beliefs and values that I have developed over time and experience. I believe that nature is the most powerful force that exists and that the elements of nature flourish outside as well as within us. I believe in both a masculine and feminine deities, a Goddess and a God. I am what some would refer to as a solitary Wiccan. I also feel a connection with The Tao Te Ching (The Way) I believe that we can create our destinies, but only if it is what our true will desires. I believe that music is very spiritual, and I hope that my music conveys this belief. Spirituality as well as dreams play a large role in my music. I have been largely inspired over the years by mysticism, shamanism and magick. My spiritual life exists in both my dreams and my daily life. My music draws much inspiration from the other side of consciousness, the realm of dreams. For this reason my music should be listened to awake and while sleeping for best results. As I walk down this path of mystery, I welcome its gracious beauty and never ending tests, lessons, and gifts. As it just so happens that all three coexist as parts of the same eternal state of being. This is an album to help inspire peace, wisdom and change to all of those who listen. Love was the single guiding force in the recording of Manasota My wish is that my music find you at a time when it is most meaningful. -Justin Robert
