About the Composer and Poet Looking ahead is more my style, so this biography is quick to the facts. I started music at the age of ten when my parents purchased a Lowrey organ with two manuals (two keyboards) and foot pedals. This gave me the coordination I needed for that early age. After moving out on my own, I couldn't afford a keyboard so I bought a guitar. I would visit my local University to keep up on keyboards and I discovered a love for the piano. On November 25, 1986 I became a Christian. Soon after I bought my first keyboard. At that time I thought music was just a hobby, but after twenty-one years, I have come to realize this is a gift of the spirit. God had drawn me to that first keyboard just months after giving me my life to Christ. After twenty one years I am applying the Spirit's gift for the Kingdom and ministry. With practice, I am honing the skills of music communication to the child of God and the lost. I started composing when frustrated with the struggles of reading music. Performing other composer's pieces was too much like my full time job as a printer. I was unfulfilled until I started

writing my own songs, and soon I found a much greater reward in composing. It was creation! Oh, how wonderful it is to craft something out of nothing with God's hand on my shoulder guiding me on my way! How God loves His creation of earth and children!, In my small way, I try to glorify His creation in word and song. Not one blade of grass can grow without the power of God. To God I give all praise for His wondrous works. Submitting to the will of God is the most important thought on my mind at all times. My hope is that the music and word will comfort you, inspire you and cause you to experience the love of Jesus. Half of my inspiration comes from the people around me. Deeply feeling their troubles and joys presents me with the responsibility to comfort and offer praise in song and word. If the words can not be spoken, then the music takes me over. If I don't hear music, then the written word will bring comfort. The other half of inspiration is the pure joy of standing in God's wilderness surrounded by only the creation of the Lord. Truth is wilderness. All that our senses embrace is God. How much closer can one be to the Creator than here in creation? The Bible repeats the theme of isolation from Adam to Moses to Jesus. Green on Blue (my company logo) is the exhilaration of looking to the Heavens in the wilderness and feeling the complete peace of the green trees contrasted on the blue sky.
