Modern folk rock with great lyrics. 10 MP3 Songs FOLK: Folk Pop, ROCK: Acoustic Details: I grew up in NY. Moved to Ma.in 1992, where I got into a band or two as a drummer. After years of being in the background, I decided to make the jump to front person. I have an ego, what can I say. I started writing and playing guitar about 6 years ago and have been going strong ever since. Played with a Salem, Ma. band, McCarthy's Finger for 5 years before moving out to Ca. to start my solo projects. Did some recording with MF before moving and have a 6 song CD to show for it. Recorded my first solo CD in 2004 with ERA Productions after playing and rockin' a showcase at The Knitting Factory in LA. Nominated for best folk artist of the year 2005 at the Orange County Music Awards and just recently played at the infamous Viper Room in Hollywood. Now I can be seen in and around the LA/OC area at bars , coffee houses and where ever else they will have me.
