Blues to make you smile, groove, and shake your money maker. 12 MP3 Songs BLUES: Electric Blues, BLUES: Rockin' Blues Details: From Billtown Blues Associations Newsletter, Billtown Blue Notes - September/October 2004 "I liked this one right out of the chute. Call it part Blues, part Rock, part Funk, part R&B, part Soul and fun from beginning to end. I haven't had this much fun since the blues/rock bands of the sixties. This piece is solid and deeply rooted in the blues." - Bill Willson From Billtown Blues Associations Newsletter, Billtown Blue Notes - Top CDs for 2004 "Who says homegrown is inferior? Slaughterhouse Blues is blues/rock at its finest." - Bill Willson From Blues Revue Magazine's Blues Bites Column - December/January 2005 "Tony Formica's vocals are hearty, Jason Suter's guitar work keeps the three-piece sound solid (check the seamless shifts on "Baby, Baby, Baby"), and the rhythm section rocks. Perfect for a club band." - Tom Hyslop Visit our website to read the reviews and learn more about the band! Thanks for supporting live music!
