Industrial-rock, Rock and roll killed by computers 5 MP3 Songs ELECTRONIC: Industrial, ROCK: Goth
Details: 8/2006 - If you are looking for the music featured on the soundtrack to Capcom's Dead Rising, try checking out our debut CD, Normalized - cdbaby.com/cd/evolutionaries the Evolutionaries are a group of individuals interested in exploring the nexus of rock, electronics and noise. Artists very influential on our approach include Nine Inch Nails, Mindless Self Indulgence and Error. The Evolutionaries new EP, Exoskeleton The new EP, Exoskeleton, was released in December of 2005 from Latex Records. It is a short, fast and brutal electro-punk-rock attack of noise and melody. The goal for this project was to create the sound of a rock band beaten within an inch of its life by an angry mob of computers. download Recombination, a free MP3 from our new EP from our media page at the-evolutionaries.com/media.php If you are interested in hearing material from our first release, it is available through CD Baby here: cdbaby.com/cd/evolutionaries
