Upbeat lively parent friendly children's music, some with messages, some just for fun. 14 MP3 Songs
KIDS/FAMILY: Children's Pop, KIDS/FAMILY: General Children's Music Details: "Kangaroo Waffles
Other Treasure" from award winning singer-songwriter Tommy Gardner (of the Uncle Brothers) is the
latest parent-friendly CD from Blackwater Records. Although his first CD, "My Candy Tree" was produced
for the 7 and under age group, this CD was written and produced for ages 4-12. There are 12 original
songs and two covers (he also wrote new lyrics to "If You Wanna Be Happy"). Getting airplay already are
"Next Harry Potter" (about a child who dreams of becoming a famous author), "Choices" (great character
education song), "Halloween Parade" (a new island version), and "Kangaroo Waffles". His popular songs
, "Bully Bubba", "Lunch Trade", "The Gnome", and "One" are being used in elementary schools and many
teachers have raved over his song, "Summertime", as it perfectly captures the feeling of the last day of
school. He recorded his version of Harry Chapin's, "Flowers Are Red", which he's always wanted to do.
He felt this song, although not traditionally a kids song, should be presented to kids and teachers to not
only remind them how special teachers are, but he wanted to introduce Harry's music to a whole new
audience. "Delightful entertaining!" Parents Guide magazine "I loved watching (Tommy from) the Uncle
Brothers and you will too. The kids were totally involved, had a great time, and learned meaningful things
(messages) as well" Bob McGrath from Sesame Street
