Discover How Your Exit Traffic Can Tell You Exactly How To Increase Your Sales, Get More Subscribers, & Explode Your Profits... Literally Overnight! How much of your web traffic leaves without buying your products or opting in to your list? ... 60? 80? If your like most internet marketers, its probably closer to 98-99! You work hard to get visitors to your websites, and the vast majority will leave never to return again! Okay, so what can you do about it? What if there was an easy way to make money from the people who choose not to buy your products? Something that would continue to work for you, increasing your income week in week out... ... a solution like this simply didnt exist, until now! Second Chance Profits deploys an unblockable pop up survey whenever someone leaves your site without buying or opting in to your list. It has been tested to work in any browser, and is 100 unblockable by any popup blocker available. The first time I used an exit survey on one of my sites, the feedback I received after just one hour was worth GOLD! I plugged it into one of my free membership sites, and in less than one hour I had two people leave comments that they didnt join the site because they couldnt afford it. I was SHOCKED! I thought it was clear the offer was free, obviously not. I looked over the site again, made a few

adjustments and my opt-in rate skyrocketed instantly! I dread to think how much subscribers and profits I would be leaving on the table had I not made those changes. What Second Chance Profits told me in just one hour, would have taken months using split testing software, not to mention the thousands of dollars in profit I would have missed out on... Dont get me wrong, Im not saying split testing is dead, or that you shouldnt do it, you should. But nothing can give you results as quickly as this unblockable exit survey system. Combine this with a split testing solution and you would instantly become one of the most efficient testers in internet marketing. Take a look at the sales website for all the details...
