

Boom Bust: House Prices, Banking And The Depression Of 2010 - Fred Harrison

[DOWNLOAD HERE](#)

Using the United Kingdom as a case study, this well-researched account shows how, for more than 200 years, a remarkably regular 18-year cycle of boom and bust can be traced to the peaks and troughs in land prices. This exploration reveals how governments, during the upswing of the cycle, are complicit in encouraging a belief that property prices will continue upwards indefinitely because of their skilled management of the economy and attributes the current crises to public policy on both sides of the Atlantic. An alternative plan to neutralize the next boomone that would lead to a more stable and environmentally friendly economy with a more equitable distribution of wealthis also presented.Author: Harrison, Fred Publisher: Shephard-Walwyn Illustration: N Language: ENG Title: Boom Bust: House Prices, Banking and the Depression of 2010 Pages: 00304 (Encrypted EPUB) On Sale: 2010-01-01 SKU-13/ISBN: 9780856831898 Category: Business & Economics : Accounting - Financial Category: Business & Economics : Real Estate - General Category: Business & Economics : Economics - Microeconomics
