The 1971 conflict mired Pakistan in a bitter civil war and brutal struggle both within its own country and against neighboring India. Backed by the Soviet Union and the United States, the 1971 war was fought over territories of East Pakistan, which then seceded to become Bangladesh. Through a detailed investigation of representative events on the ground, this remarkably human history contextualizes the war while vividly theorizing on the nature of the conflict itself. As with most wars, the narrative of 1971 has largely been written by the victors. All other actors have been imprisoned within partisan mythologies. This book sets out to rectify this bias, reconstructing events through extensive interviews conducted in Bangladesh and Pakistan over four years. It features published and unpublished recollections, sampling from official documents, tapes, photographs, video documentaries, and reports issued by the foreign media. Many interviewees speak about their experiences for the first time, introducing new strands into an otherwise poorly represented history. Their "contesting" memories diverge from dominant narratives in crucial ways, ultimately showing how the war's reverberations continue to play out within the
