Amelie Dutoit-Revue De Paris, France "A very musical CD with an intimate, one on one feel, a very personal approach to some of the most melodic songs that will ever be written. Bobby Singer is revitalizing melody and the torch has been passed to a new generation" CD Review WBAI Radio, NYC, NY A Note from Bobby: Hi Guys and Gals! Well, this is Lets Fall in Love, what I mean to say is, this really is my first love that I fell in love with and couldnt let escape. I approached these songs and even wrote one of them, Comfort, to relate to one person, you. I hope you can feel my voice within yours. So, lie back in bed, light a candle and turn it on. Ill be on the road when I can in some smokey Cafe in Paris or Spain, perhaps in your town, we never know where roads lead. Hope you enjoy this CD as much as I did recording it ! Until then, Lets Fall in Love, Bobby Singer
