

Mp3 Flavor Crystals - On Plastic

[DOWNLOAD HERE](#)

Ethereal minimal space rock. 8 MP3 Songs ROCK: Psychedelic, ROCK: Noise Details: Alone in dark corners, twiddling with endless chains of quirky, crackly boxes... fuzz pedals, echo units, modulators. Single guitar notes, pulsating patterns... gurgling, rumbling, repeating. Bouncing off each other... finding ways to fit together. Wobbly and sometimes sweeping rhythm developing from colliding echoes and beats. Melodies chiming through murk, surfing on these tumbling waves. A voice amidst the music, soothing and often nonsensical, to comfort the uneasy. And here's what's been said... ...a splendid debut disc of oneiric, floaty rock reminiscent of and early.... The cover of Donovan's "Sand and Foam" nods to gentler folk influences, but the best moments are when Flavor Crystals spins in its own easygoing, spacey orbit. -The Onion, July 2005 Eight songs full of droning riffage, gossamer guitar webs and perfectly lazy-eyed vocals, fans of and their anglo-ilk will be beside themselves when swooning to the hazy sounds of the Flavor Crystals. -Rob Van Alstyne, Pulse of the Twin Cities, July 2005 "I got the CDs today. For sure - I'm in love with this music from the first time!!! I'll be two times proud to have split with the Flavor Crystals!!!" -HotZex (split single coming soon!)
