Darryl Havers is the keyboard player, Darryl comes from Manitoba like myself and has brought his talents to Vancouver where he plays with one of this towns biggest bands Brickhouse. He has played with Long John Baldry, Ferron, Raffi and everyone else. His lines in For your love track 4 are reminiscent of the early jazz greats. Tanya Hancheroff (She has a writing deal with BMG) Tanya used to be in the Roxy Band that rocked Vancouver every weekend, Nadine States vocals (Nadine is one of Vancouvers most on call Back up Vocalist) and last but not least Mark Henning who engineered the CD and added the little extras to make it all fit together. Mark's claim to fame was that of keyboardist of the Rock Band Pure.

Mark played most of the shakers, claves etc. I wanted the best of the best on my CD and I got them. This CD was a work of love and we spent about 2 years on it, I am very proud of it and I know anyone that buys it will enjoy it. The CD is not classic blues but everyone says that my vocal stylings are bluesy so that is why I put it here. If you have any other suggestions where it should go drop me a line. Just got reviewed in the Vancouver Province Newspaper by John P. McLaughlin. "Zee has an unusual delivery reminiscent of solo Robbie Robertson while his songwriting is first rate. There's a moody, breezy feel on "Santa Fe" and "Sold My Soul" has a serious dance groove. Given half a chance this could be very big."
