This music is all original, solo, piano music I have composed and recorded. This New Age, relaxing music is perfect to fall asleep to or just to easily listen to. 12 MP3 Songs EASY LISTENING: Mood Music, NEW AGE: New Age Details: Hello! Music is my emotion expressed. I find my music to grab a hold of people's interest because of its simplicity and relaxing nature. I know that one thing is relaxing to one person while it can be completely annoying to another, but I still hold true to believing my music is tranquil and peaceful. I created my first song as a freshman in High School and by my senior year, I had recorded, produced, and was selling my first album, "Progressions Through Time." This CD has fifteen original compositions and one rendition of Pachelbel's Canon as well. Music is not a job or a task for me; music is a sincere passion. My music is much like a healing power for many of the common, daily let-downs that life seems to throw our ways. I know, this was a lot to read, but I hope that you give my music a chance or at least contact me for more information. Music is one of the greatest things in this world we live in and is meant to be shared and appreciated.
