Original instrumental jazz with a sun-drenched Latin patina; danceable and improvisational with memorable, sing-able melodies. 12 MP3 Songs JAZZ: Latin Jazz, WORLD: Island Details: 1. Sandcastles: Childish, romantic, a fine home for imagination. 2. Santa Fe Cafe: A real place; interestingly, it's in Maryland. 3. Tsunami: Written before the big one hit south Asia, I was trying to capture a sense of their power. 4. Kilowaterpiller: This title is just an example of Lewis Carroll's 'jabberwocky', a nonsense jumble of words that really has nothing to do with this beautiful love song. 5. Isis: The Greek goddess of fertility; another love song...and you can dance to it. 6. J'ouvert: A massive all-night-street-party in Trinidad characterized by a dancestep, revelers covering themselves in mud, or axel grease or chocolate or...all going on to steel drum music. 7. Camelot: I wrote this snippet to familiarize myself with a new synthesizer and digital recorder. 8. Migration: Again, a powerful force of nature that we humans still don't understand. We can't control it or use it. Isn't that cool? 9. Short Cut: Everyone knows this one....or we could walk the long way home.... 10. Cloud Forest: A remarkable ecosystem where tree-tops and clouds form a unique environment. 11. Perfect Circle: Legend has it that Leonardo da Vinci drew one as a submission for a commission. 12. The Circus Flea: A musical representation of their antics.
