

The Rise Of Planning In Industrial America, 1865-1914 - Richard Adelstein

[DOWNLOAD HERE](#)

Central economic planning is often associated with failed state socialism, and modern capitalism celebrated as its antithesis. This book shows that central planning is not always, or even primarily, a state enterprise, and that the giant industrial corporations that dominated the American economy through the twentieth century were, first and foremost, unprecedented examples of successful, consensual central planning at a very large scale.
